Ms. Hahn's Classroom Newsletter

Math

We did not have a lot of time for math this past week due to Native American Week. In the coming week students will be solving a variety of story problems related to measurement.

Writing

In the coming week we will work on the endangered animal research poster. Students will take the information they found and rewrite in their own words for the poster. They must use correct punctuation, grammar, and capitalization.

Word Work

The students will not have new word work words this week due a field trip and three PARCC tests.

Most students will have high frequency words to study in their assignment notebooks.

Earthkeepers

Please remember to work on Earthkeepers at home. This coming week the students will work on the in class portion to bring home. It is due May 29th.

Native American Week

This past week the students got to experience many great activities related to Native Americans including specifics from the Potawatomi tribe. There are some pictures posted on Facebook. The following is a list of some of the activities:

- Seeing and touching artifacts
- Listening to many legends
- Cutting willow
- Building a wigwam
- Learning about Bison and drawing a bison
- Hearing about Potawatomi's beliefs
- Choosing a location for building a home (prairie, wetland, or woods)
- Birch bark craft
- Making medicine bags
- Cooking
- Playing Native American games
- Planting squash
- Attending a powwow
- Dancing at a powwow

Thank You

Mrs. Steinbeck and I would like to thank you for a great week. We appreciate the cards, pretty flowers, presents, generous script money, and delicious treats you and your children gave us this week. It was an awesome week! Thank you!

Field Trip Old World Wisconsin May 13

We will be going to Old World Wisconsin on May 13th. Dress for the weather. We will not have time for a snack. Please send a lunch that does NOT need to be microwaved.
