Why Learn and Play Chess? Academic Benefits

I have brought chess to the schools because I believe it directly contributes to academic performance.

Chess makes kids smarter. It does so by teaching the following skills:

Focusing, Visualizing, Thinking Ahead, Weighing Options, Analyzing Concretely, Thinking Abstractly, Planning and Juggling Multiple Considerations Simultaneously.

Make the right move! Whether you are a beginner or an advanced chess player this program is for you.

Children in all grade levels K-8 are welcome to come and learn the great game of chess!
