## THANK YOU TO OUR SPONSORS

**Mundelein Pediatrics • Lake County Building Trades**

Sports transformed Matt Hupp into a strong leader with unrelenting courage and discipline. The life lessons Matt learned on the field helped him in his fight with cancer. He stared it in the eye and kept fighting. In memory of Matt, we feel that every child should have the opportunity to participate in activities that build esteem and character. That's how Matt inspired us, that's why the 12 Oaks Foundation was created.

Our mission is to provide a financial resource that will defray the cost of sports and extracurricular activities for children in families suffering temporary financial hardship related to ongoing cancer treatment.
