

Donate your Electronics!

Any broken electronics are allowed or cracked screens!

- Donations will start on April 9-20th, and drop-off bins will be in all the classroom buildings.
- The donations will be sent to the military, men and women, and they will turn your old and broken electronics into something new for our country.
- This is also helping the planet, because throwing away electronics is bad for the earth.

If you have any questions,
