

Week of 1/7
HAPPY NEW YEAR!

W.O.W
subtraction, less,
contraction, maybe,
adjective

Important Dates:

1/11: Early Release

1/16: Farm to Table

1/22-1/25: Peace
Week

Reading:

This week we are continuing our work with summarizing passages, stories, and nonfiction. We are focusing a lot on small reading groups this week as well, to improve comprehension and fluency.

Writing:

In writing we are sharing informative writing with partners and beginning our next unit on personal and persuasive essays. We are also doing many activities revolving around commas, homophones, and contractions.

Science

we will complete our Unit on Animal/Plant adaptations and begin our unit revolving around rock, sand, soil, and landforms.

MATH

This week we are beginning our math unit working with place value up to 1,000,000 and multi-digit addition, subtraction, and measurement concepts. Students will be using standard addition and subtraction algorithms. They will be comparing the use of algorithms to other methods and make generalizations about which work best for certain problems. Please encourage your student to use IXL at home. Keep your eyes on their assignment notebook, for sometimes they have specific standards assigned to them on IXL on days we do not have Home Connections.
