

# NOVEMBER

Week of 11/26

*I hope you had a wonderful break!*

## Words of the Week

plains, complex,  
conversation, pair,  
twelfths

## Important Dates:

12/3/18: Holiday  
Bazaar

12/5/18: Early  
Release

## **Writing**

This week in writing we are continuing to work with the formula to create complex sentences and we are expanding our topics for our informative papers. Ask your student their topic!

## **Reading**

Students will finish their Underworlds powerpoint final product. We are reading different folktales and identifying story elements throughout. We will also be starting up our reading small groups again.

## **SS**

This week we will get to do a Cahokia trading simulation activity. Your student has been learning about early Illinois tribes. We are moving into the plains Indians next.

## **MATH**

This week as we continue our beginning work with fractions, we will be talking about the different fractional relationships between thirds, sixths, twelfths, the whole, and so on. We are working with these fractions in a variety of story problems. We are also making discoveries on where these are in relation to each other by putting them on a number line. Please continue to have your student practice their division and multiplication facts at home using flashcards .
