

Week of 12/3

W.O.W
product, total,
method, rich, sense

Important Dates:

12/5: Early Release

12/7: Green Team
Prairie Skies party

12/14: Pizza Friday

Reading:

This week we are continuing our small group reading, reading to self, and reading to someone. We are also going to be reading books on the Plains Indians.

Writing:

This week we are focusing on mechanics and drafting our informative papers and will begin the editing process. Students are finishing up their fractured fairy tales and will have the opportunity to share their work with another class.

S/SS

As we finish our unit on different Native American tribes of Illinois, we are moving into our next Science unit on inherited traits. We also have our class Geography bee on Monday and the school wide Bee on Friday.

MATH

We began exploring fractions in class using geoboards last week and identifying equivalent fractions. We will be decomposing, comparing, adding, and subtracting fractions. Students will be multiplying whole numbers by fractions and solving story problems incorporating fractions, imperfect fractions, and mixed numbers.
