Classroom News

October 10, 2019

Upcoming Events

- * On Thursday, 10/17 our grade band is selling Apple Cider to the 7th and 8th graders as a part of our SS unit. Our students may purchase cider as well for 1.25 (own cup) or 1.50 at this time.

In The Spotlight

- * Our classroom of learners! Students harvested corn from our garden beds. Once the corn dries, our grade band will enjoy "pop" corn. Ask your students about the color variations of the corn.

Dates to Remember

- * Friday 10/11 No School
- * Monday 10/14 No School
- * Thursday 10/17 Apple Cider Sales

Our Learning

4th Grade Math: Students continue to work on multiplication and early division strategies using arrays, story problems, standard form, and ratio tables. We will continue to work on division next week and add remainders to our skills.

Reading: Third graders began reading the novel, *The Chocolate Touch* and fourth graders *The Underworlds* in class this week. We will continue to read these books in class during Daily 5 in the upcoming weeks and work on corresponding comprehension activities.

Science/Social Studies: On Oct. 17th we will be selling cider to the students in the 7/8 grade-band. We changed from our original 5/6 grade due to scheduling. We also began our light unit. Students are learning light terms and participating in hands on activities to explore light.

Writing: Students continue to work on their personal narratives and handwriting skills. We use our word of the day to produce a sentence as a class throughout the week for our word wall.
