2019

Class Highlights

Theme— The students played a game to review the terms goods and service. They worked with a partner to determine if they received a good or service from the person listed on the card. For example, a dentist, a butcher, or a hairdresser. On Thursday, Ms. Naomi came to teach about producers/consumers, goods/services in Nature! The next lesson had them writing an I wonder statement about salsa—what does it take to make, what are the steps needed to take? They did a great job!

Writing—This week we continued our teaching writing unit by focusing on how-to writing. Students will write a how-to piece about making a snowman. We made a list of academic language to use when writing specifics. We plan to have these finished before winter break. Be on the lookout for the Seesaw posts next week!

2ND GRADE MATH

We continued our measurement lessons! This week we used a yardstick to measure various items around the classroom. Students learned why using a large measuring tool is good when having to measure large objects! Several new Work Places were introduced this week. Students are measuring 2 objects, finding the difference, and then repeating this twice. They add up the differences and compare with their partner. Another one has them adding up dice (#5-9), and then subtracting 9 or 10 from that number. Their goal is to climb the beanstalk.

FYI...

There has been a lot of students getting sick to their stomachs at school lately—please encourage your student to WASH their hands.

GOOD TO KNOW:

- ⇒ 12/20—EARLY RELEASE, Winter Sing @ 8:30, Winter Party @ 11:45
- ⇒ 12/21—1/5: WINTER VACATION
- ⇒ 1/6—Return to School
- ⇒ **Parent Portal:** login: pccsparent **Password:** PCCS@1999-2020

Wish List Items:

- Whole peanuts—to feed BlueJays
