Valentine's Party

- * Our class will have a Valentine's party on Friday, Feb. 14th from 2:15-3:15pm. I've created a [Class List](#) for valentines. Students should bring a valentine for each student if they participate.

RazKids

- * I encourage students to read at home. I've been asked if students are able to use their RazKids accounts outside of school. Yes, students can use their login at home and read leveled books. :)

Upcoming Dates

- * Wed. Feb 5- Early Release 1pm
- * Fri. Feb 14- Valentine's Party 2:15
- * Mon. Feb. 17- No School
- * Tues. Feb. 18th No School- Teacher inservice.

Our Learning

4th Grade Math: Students are learning about angle types, measurements, polygons, and symmetry. We continue to practice measuring and identifying angles with a protractor. We will continue to build our skillset throughout the upcoming week.

Writing: We continue to work on crafting a story with our guest Author, Natalie Rompella. Students are learning about dialogue between characters and how to appropriately use quotations marks in our writing pieces.

In addition to crafting stories, we are working on reading two passages about the same topic and then comparing/contrasting the information with written responses.

Science: We are well into our Force and Motion unit. We are learning about different naturally occurring forces and how they impact motion.

Reading: Please continue to encourage your student to read at home and share with you what they are reading about. Theme? Setting? Characters?
